The Sweet Science of Boxing

Our Goal

To create awareness about physical fitness, healthy lifestyle and its benefits to your life.

Mission

The company is dedicated to providing world class multi sports and fitness training opportunities, with quality certified staff, equipment, and programs for men, women, youth and children, including people with disabilities, from various communities. Preparing a personal training regiment for a healthy lifestyle in a comfortable environment.

Our long term goals are to lay a foundation for skilled, focused, disciplined individuals, with improved self-esteem who will become championship sportsman with great athleticism; Applying all that is taught by our highest quality training with world class trainers and fitness professionals operating at their best level of performance in their fields. Giving our client a winning positive attitude about their future.

Our Commitment

The purpose of this company is to provide physical fitness and conditioning in every area of sports activities. With the discipline of boxing and athletic training being primary tools to effectively achieve maximum potential to our clients. Offering various programs to improve the self-esteem of our youth and adult participants in both the competitive and personal improvement area of all physical as well as all athletics. This particular location is adequate also to provide a "safe haven" to youth at risk coming from multiple urban environment. We also provide physical fitness activities for adults with various disabilities.
